

Sandpipers' Mission and Goal Statements

Mission

Sandpipers is a 100% volunteer organization dedicated to serving the needs of the South Bay community through charitable and philanthropic programs.

- Adopted September 12, 2000

Goal Statements

1. Through our events we bring awareness to the community at large of Sandpipers' mission and goals while generating funds to help those in need in the South Bay.
2. 100% of all net funds raised are put back into the community through scholarships, grants and other Sandpipers' programs.
3. In partnership with designated agencies, corporate entities and individuals, Sandpipers provides its members with diverse service opportunities to positively impact and enrich the lives of those in need in the South Bay.
4. Sandpipers is committed to achieving the highest degree of financial accountability and ethical standards in the prudent administration of Sandpipers' funds.
5. Sandpipers' internal infrastructure provides leadership training for the future by allowing members to achieve their own personal goals while advancing Sandpipers' mission through the use of their time and talents.
6. In addition to the satisfaction that they receive from helping those in need in our community, Sandpipers members build lifelong friendships while providing morale and support for each other.
7. Longevity of membership is the cornerstone that ensures Sandpipers history is maintained and communicated.
8. Sandpipers' programs, projects and events are vehicles that allow philanthropic minded individuals, corporations, and entities to give privately for the public good.
